

It is with great pleasure to congratulate the people involved in this beautiful catalogue! There has been a special friendship between the cities of Minia and Hildesheim for many years. It is thanks to Prof. Dr. Hussein Mohamed Ali Ibrahim and Prof. Dr. Regine Schulz that the contact and friendship between the University of Minia, the Roemer and Pelizaeus Museum, and the University for Applied Science and Arts Hildesheim / Holzmin-den/Göttingen (HAWK) is on such a solid footing.

In 2021, when the world came to a standstill due to the pandemic, the German Academic Exchange Service (DAAD) supported an exchange project between teachers and students from Minia and Hildesheim. The archaeologist, Dr. Sven Kielau, worked hard to carry out this exchange and bring it to life. Following the mutual visits, the Egyptologist Dr. Helmut Brandl invested a lot of work and took over the main editing part of this book, which reflects the richness of Egyptian culture. Special thanks also go to Prof. Dominika Hasse from the HAWK for her thoughts on corporate design. I am pleased that the Mallawi Museum is so appreciated because Dr. Ahmed Mohamed Sayed Sayed Hemida, the General Director of all Provincial Museum in the Ministry of Tourism and Antiquities, and his team fought hard to renovate and reopen the museum. This catalogue demon-

strates in a wonderful way the close connection between Hildesheim and Minia. I am also very glad that the cooperation is not just limited to 2021 and the years before, but will continue also in the upcoming years. I thank all the editors, authors, scholars, and students, who were involved in the production of this book and wish them and our cooperation all the best.

E. S. Farahat

H. E. Prof. Dr. Esameldin Farahat

President of the University of Minia
